EDUCATION

Saigon University

Software engineering students

Expected Graduation: 2027

COURSEWORK

Courses: Data Structures & Algorithms, Object-Oriented Programming, Software Testing & Quality Assurance, Database Management

SKILLS

Languages: Java, JavaScript, HTML, CSS, PHP

Database: MySQL, Firebase

Tools: Git/GitHub, XAMPP, PHPMyAdmin, VS Code, IntelliJ IDEA

PROJECTS

SmartDoc AI – Intelligent Document Q&A System | *Python, Streamlit, LangChain, FAISS, HuggingFace, Ollama*

- Developed a local AI-powered document question-answering system capable of processing multilingual PDF documents.
- Implemented vector similarity search using FAISS combined with multilingual MPNet embeddings (768-dimension).
- Enabled automatic language detection and response generation supporting Vietnamese and more than 50 languages.
- Built a web interface using Streamlit with custom HTML/CSS styling for user-friendly interaction.
- Integrated open-source local LLM runtime using Ollama to ensure privacy and offline capability.

Badminton Store Management System | *Java, MySQL, XAMPP*

- Developed a badminton equipment store management system with CRUD modules for employees and administrators.
- Implemented product management, sales revenue tracking, invoice processing, and warranty service management.
- Designed a role-based access control system allowing administrators to manage employee accounts and permissions.
- Used MySQL database (via PHPMyAdmin) for persistent data storage and management.

Dolce Bakery – E-Commerce Website for Cakes | *PHP, MySQL, HTML, CSS, JavaScript*

- Developed a full-stack bakery e-commerce website using a LAMP architecture.
- Implemented product browsing, search, shopping cart, checkout, and customer profile management.
- Built an admin dashboard supporting product CRUD, supplier management, order processing, and sales reporting.
- Designed a responsive user interface using modern HTML5, CSS3, and JavaScript (ES6+).
- Implemented role-based access control allowing administrators to assign permissions for staff members.

EXPERIENCE

University Sports Club | *Member*

- Participated in various sports activities organized by the university to promote teamwork and physical fitness.

Programming Instructor (Part-time)

- Taught programming fundamentals to students at private training centers.
- Guided learners in basic programming concepts including algorithms, logic building, and coding practice.

HOBBIES

Sports

Enjoy participating in various sports activities and maintaining an active lifestyle.

Reading

Interested in reading books related to technology, personal development, and general knowledge.
